

Name _____

Date _____

Math Game: Fraction Forest Playground 1

✓ What I Practiced

How did you build the fraction pieces the animals needed?

☐ Copied unit fractions

☐ Other:

☐ Made equal parts

☐ Combined unit fractions

⚙ How I Solved It

Deer found a 1 meter piece of wood in the forest. She needs a piece of wood that is $\frac{4}{9}$ meter. How can you help Deer?

a) I can split 1 meter of wood into _____ equal pieces.

b) I can then combine _____ of those pieces with the glue tool.

📌 Next Steps

How did the tools of the forest help you make new fractions?

What will you try next time?

☐ Fractions larger than 1

☐ Other:

☐ A mixture of problems
