Math Game: Number Line Hunt

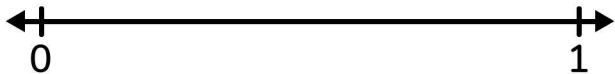

✓ What I Practiced

What math skills helped you place the fractions?

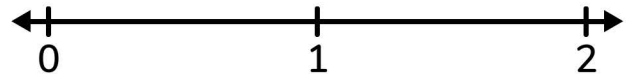

- | | |
|--|---------------------------------|
| <input type="checkbox"/> Identifying unit fractions | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Dividing the number line | |
| <input type="checkbox"/> Using benchmarks like $\frac{1}{2}$ | |

⚙️ How I Solved It

Place $\frac{1}{3}$ and $\frac{3}{4}$ on the number line.

Place $\frac{5}{6}$ and $\frac{4}{3}$ on the number line.

📌 Next Steps

What did you find challenging about this game?

What will you practice for next time?

- | | |
|---|---------------------------------|
| <input type="checkbox"/> Making equivalent fractions | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Comparing fractions to $\frac{1}{2}$ | |
