Math Game: Ratio Blaster

✓ What I Practiced

What helped you identify equivalent ratios?

- | | |
|--|---------------------------------|
| <input type="checkbox"/> Equivalent fractions | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Simplified ratios by division | |
| <input type="checkbox"/> Made equal ratios with multiplication | |

⚙️ How I Solved It

Circle the two equivalent ratios in each group. How do you know?

12 : 20

6 : 15

3 : 5

8 to 3

4 : 1

40 : 15

📌 Next Steps

What kinds of ratios were difficult to match?

How will you improve your ratio skills?

- | | |
|--|--|
| <input type="checkbox"/> Simplify ratios | <input type="checkbox"/> Replay the game |
| <input type="checkbox"/> Make ratio tables | <input type="checkbox"/> Other: |
