Math Game: Ratio Martian

✓ What I Practiced

What helped you identify the ratios?

- ☐ forms such as 3 to 2, 3:2, or $\frac{3}{2}$
- ☐ Other:
- ☐ part-to-part relationships
- ☐ comparisons between 2 quantities

⚙️ How I Solved It

Circle the ratio in each group and explain how you know it's a ratio.

5×6

$5 : 6$

$6 - 5$

$6 \text{ to } 10$

6×10

$10 + 6$

📌 Next Steps

What kinds of ratios were difficult to identify?

How will you sharpen your ratio radar?

- ☐ Compare real objects
- ☐ Replay the game
- ☐ Make a list of ratio forms
- ☐ Other:
